ARKEMA SHOWCASES INNOVATIVE AND SUSTAINABLE SOLUTIONS AT THE XXVIITH WORLD ROAD CONGRESS IN PRAGUE.

Arkema, a world leader in Specialty Surfactants, will meet with customers to showcase a wide range of additives participating to the different road technologies at the 2023 World Road Congress, **BOOTH 3.09, in Prague, Czech Republic, October 2-6.**

"We are so happy to be "together on the Road Again" (2023 Congress theme) at the World Road Congress in Prague, an event that highlights the global importance of well-maintained and sustainable road infrastructure. At Arkema, we are committed to leading the way in providing specialty and innovative materials that not only improve road durability but also contribute to the carbon neutrality of the road sector. Eco-designing is in our DNA, using bio-based raw materials and advanced technologies, that reduce environmental impact." Said Caroline LAPEYRE, Business Director for Infrastructure

SOLUTIONS FOR THE GLOBAL ASPHALT PAVING INDUSTRY

Arkema's complete portfolio of products provides proven, effective solutions to meet today's infrastructure challenges with a focus on the following key product areas:

- Warm mix asphalt additives
- Adhesion promoters/liquid anti-strip additives
- Asphalt/bitumen emulsifiers
- Preventive pavement maintenance and pavement preservation technologies – bonded pavements, micro surfacing, and chip seal
- Asphalt recycling technologies – hot and cold pavement recycling solutions

Arkema invites all attendees, stakeholders, and media representatives to visit its exhibition **booth 3.09** to learn more about the company's pioneering solutions and its commitment to a sustainable future.

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive Solutions, Advanced Materials, and Coating Solutions - accounting for some 91% of Group sales in 2022, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around € 11.5 billion in 2022, and operates in some 55 countries with 21,100 employees worldwide.
